

Name: _____

Last night, I saw an alien. I was sleeping in my bed when I heard a loud crash outside. I got up to look out my window.

Then, I saw a bright light beaming down. I snuck out my window to get a closer look. I saw a figure appear in the light. It was an alien! He began walking toward me with a smile. He asked me to join him on his ship. He told me his name was Ned. I got in the ship and off we went! Ned launched the ship and we went into space together. We zoomed through the galaxy and saw so many stars. I saw all the planets and even the milky way! After a while, it was getting late. Ned told me we had to go home. We landed back on Earth and he opened my window for me. I walked back to my bed and fell asleep, dreaming about my trip to space.

.....
1. Why did I wake up?

2. How did I get out of my room?

3. What did I see on my trip?

4. Do you think my trip was a dream or real?
